

LinkoCTS-SQL/LinkoFOG-SQL

System Requirements

WORKSTATIONS*

Operating System**	Windows XP SP-3 or later Windows Vista SP-2 or later	Windows 7
MS Office Software**	Microsoft Access, Word and Excel Most recent service releases of 2003, 2007	
Processor	Minimum: 600 MHz processor Recommended: 2 GHz processor or higher	
Memory	Minimum: 512 MB of RAM Recommended: 1 GB of RAM or more	
Hard Disk	Minimum: 250 MB of free disk space Recommended: 30% free disk space on Operating System drive or more	
Other	Keyboard, mouse, color monitor with 1024x768 resolution CD-ROM drive Minimum: Internet access Recommended: High speed Internet access	

DATABASE SERVER

SQL Server System **	SQL Server 2000, 2005 or 2008 Enterprise, Standard or Workgroup Editions	
Hard Disk	In addition to SQL Server requirements, the Linko Database will require 1 GB of free disk space (This amount will increase over time as data is added or if Full Recovery is used)	
SQL Server Hardware and OS Requirements	Refer to Microsoft's website: SQL 2000: http://www.microsoft.com/hk/sql/evaluation/sysreqs/2000/default.msp SQL 2005: http://www.microsoft.com/sqlserver/2005/en/us/system-requirements.aspx#32 SQL 2008: http://technet.microsoft.com/en-us/library/ms143506.aspx	

SHARED FILES (SERVER)

File Server	For storing Linko and User Shared Files. These files must be available to all Linko users. Users must be granted Full Control to the files. It is recommended that the files be available to all Linko users via the same UNC path (ie. \\ServerName\ShareName) and that mapped drives not be used.
Hard Disk	250 MB of free disk space (This amount will increase over time as data is added)

LinkoCTS and LinkoFOG can also be run on terminal services including CITRIX systems.

* Minimum is based on the oldest supported versions of MS Office as published on the Microsoft website. In most cases your needs will exceed these minimum requirements due to other software or operating system requirements. Visit <http://support.microsoft.com> and search for Office System Requirements.

Recommended is based on the typical demands placed on a PC or laptop to run a variety of software services and applications simultaneously and still provide above average performance of the Linko software. In general, faster processor speeds and larger RAM result in better performance.

** Linko Technical support is provided for the most recent service releases of the noted Microsoft office products.

Find more version support information for Linko and Microsoft products at: <http://www.linkoweb.com/productlifecycle.html>
